## Education

<b>Georgia Institute of Technology</b>	Ph.D. in Computer Science Atlanta, GA Advisor: Dr. Taesoo Kim	05/2014–05/2019 (expected)
<b>University of Madras</b>	B.E in Computer Science Chennai, India	05/1998–05/2002

## Research Interests

Operating systems, Distributed systems, and Computer networks.

## Current Research

My current research enables data center server applications to improve their performance using Linux eBPF. I am interested in extending the use of eBPF/XDP for data plane processing, and its extension to hardware using P4.
